

**Chebeague Island School Department
School Committee Policy**

ILA

STUDENT ASSESSMENT

The School Committee recognizes that Maine law requires each school administrative unit to use multiple assessment methods to measure student proficiency in the content areas of the Learning Results and the cross-curricular *Guiding Principles*. The School Committee also recognizes the value of assessment in informing and improving instruction.

Through this policy, the School committee adopts and directs the Superintendent/designee to implement and oversee an assessment system for the Chebeague Island School that will accomplish these objectives. The Superintendent shall be responsible for reviewing the assessment system for compliance with applicable statutes and Maine Department of Education standards.
